DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Objections

2. Claim 25 is objected to because of the following: The claim depends from a canceled claim. Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 18-22 and 25-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsumoto et al. 6,174,943, Schlosser et al. 6,255,371, Jenewein et al. 6,365,071, Horold 6,420,459, Klatt et al. 6,538,054, Schlosser et al. 6,547,992, Bajgur et al. 6,689,825, Hoerold et al. 7,087,666, Bauer et al. 7,148,276, Bienmuller et al. 2003/0083409, Bienmuller et al. 2003/0149145, Knop et al. 2004/0110878, Knop et al. 2005/0049339, Knop et al. 2005/0101708, De Wit 2005/0137297, Borade et al. 2008/0139711 or Elango et al. 2009/0036578, in view of Abolins et al. 4,233,199, Atarashi et al. 6,025,421 or Rhodia WO 03/062312, with Leite 7,482,400 serving as its English translation.

5. Leite discloses impregnating porous mineral oxides with ortho- or polyphosphoric acid and adding it to polymers in claims 1-14. This method decreases the cost of making polymers flame-retardant. See column 1, lines 35-46. This makes using the resulting impregnated flame retardant fillers into the compositions of the primary

references patently obvious. The rest of the references have been described already in the previous Office action. The rejections are maintained in view of the "Response to Arguments" set forth below.

Response to Arguments

6. Applicant's arguments filed 11/23/09 have been fully considered but they are not persuasive. The concentrations taught by the cited references all encompass and/or overlap applicants' claimed ratio of phosphorus containing compounds and scavengers. The claimed resistance to discoloration is inherent in the composition. The rejections stand.

Conclusion

7. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 11/23/09 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the mailing date of this final action.
